Messages/ news from the community

Call for contribution for future newsletter
One of our aims is to create a community where we can learn from each other. If you have any input, feedback, questions, or success stories that you would like to share, we want to hear from you at office@coe.edu.cn.

Next week spotlight: “big data of online learning”

As Prof. Ye from Tsinghua University mentioned, real-time feedback is crucial for both teaching and learning. In addition to that, we would also argue that data recorded by online learning platforms, like the Flan Classroom, is very important to administrations too. Next week, we will share with you: what kind of data are being recorded? How can data help to improve online teaching for faculty? How can online education data be more useful in decision making? What are some of the challenges and opportunities of a data-driven education system?

Subscribe to the weekly Online Education Newsletter
(Higher Education)

Each week we will share good practices on “online education policy” and “online teaching & learning” for higher education. We aim to create useful knowledge, for both administrations and teaching staff, that can be applied immediately.

We invite you to build a stronger community together, to learn from each other, and to join us in this digital revolution!
